

At work

Mon. 3rd Dec

Dear Neil, now that exams are over, I've time to get onto the business of climb classifying. I've done a couple of climbs from memory, but would like to take a look at your ~~classifications~~ and discuss them with you. With that in mind, would you please bring the book in which you have the climbs described, to Moreton this weekend?

Did you get your glove O.K.? I found it on the terrace just outside the car "Carborundum" looked mighty interesting from

down below — I sure am  
hankering to have a go at it!

Could I please borrow,  
if you aren't needing it just  
now, "Mont Blanc + the  
Chamonix Aiguilles" — by  
Milner?

— heard Beethoven's 5th.  
last night from Melbourne.  
Maybe ~~you~~ you did, too.

I seem to have run out  
of disjointed ideas so I'll  
leave things till Moreton.

Bye heil!

Graham
