

UNIVERSITY OF QUEENSLAND BUSHWALKING CLUB.

PROGRAMME SECOND TERM 1956.

In the absence of criticism or suggestions we assume that you are enjoying the outings arranged so far.

8th June

Last day for deposits for Edin. Castle. Please note and be prompt. It makes it much easier for the Outings Officer.

Sunday, 10th June Climbing Afternoon, Kangaroo Pt.

At some time in your travels you are sure to come across a piece of rock which you may have to climb. In order that you may be able to ascent the aforesaid rock, it will be necessary to learn the rudiments of climbing and so this afternoon has been arranged. On the other hand some keenness may be flickering in your tender little hearts, so no kidding will be necessary to make you come. Anyhow, regardless of your likes and dislikes come along—even if it is only to see someone else break his neck. (For those who may not have recognised it: this is Holdaway wit and should not be taken light heartedly).

With you all ready to go, there only remains the time and place to be named, so here they are ... 2.p.m. at Kangaroo Point, opposite King's College. (River Terrace).

Wednesday, 13th June General Meeting.

7.30 p.m., George Street, Refectory.

Bring any Kodachromes taken at trips during the year and we shall arrange for them to be shown. Also we hope to obtain some Movie Films about India similar to those shown last year.

15th - 17th June Edinburgh Castle.

This is an area that has never been visited by the club. It is south of the New South Wales border just off the Mount Lindsay Highway. It can be seen from many parts of South East Queensland. The whole area is very interesting and there are many pinnacles in the vicinity, e.g., Dome Mountain and Glassy Mountain.
(Military Map - Mt. Lindsay, 1 mile series.)

Saturday, 30th June Climbing Afternoon, Kangaroo Pt.

The same arrangements apply as for the 10th June; but note that it is a Saturday. If you are going to Glasshouses, you should go to this afternoon.

7th - 8th July Glasshouses.

With two climbing afternoons under your tail, this is what you have been waiting for???

The beauty of this area lies in the fact that a considerable range of climbing is available; from the easy stuff to some quite interesting and difficult climbs.

Transport will be arranged by train or privately, since this area is very handy. In order that a full days climbing can be had, we will leave on Friday night.

LEADER: JOHN COMINO.

Wednesday, 11th July General Meeting, George St. Refectory.

Bill Hocking, a member of the Mining and Metallurgical Engineering Staff will give a talk on some of his experiences of climbing and walking in Malaya.

DON'T FORGET SUPPER

Friday, 16th July. Last day for deposits for Numinbah Valley. It is essential this time that deposits be in on time as combined transport must be arranged. Best to give it in at the above meeting.

21st - 22nd July.Numinbah Valley.

A combined trip with the Brisbane Bushwalking Club. Interest on such a trip goes without comment. Springbrook, Wagawn, Egg Rock, Natural Arch etc. are all within easy reach.

SECOND VACATION

The trip will be to the Tweed Ranges, and will be of about a week's duration. (Military Map - Murwillumbah, 1 mile series.)

Wednesday, 5th September.....ANNUAL GENERAL MEETING

7.30 p.m., George Street Refectory.

Please give some consideration to the election since the well being of the Club will depend on your choice. Remember if you have an enemy, put him up for Secretary. All nominations should be in the hands of the Secretary before the Meeting and be signed as being accepted.

B. HOLDAWAY
Hon. Secretary.
